Describe below any comments you would like to make on the dog training, boarding or experience with my business. Please be honest. Please return to me in enclosed envelope. All suggestions help to maintain a good relationship to my clients and animals and make the business the best it can be.

We were so impressed with the improvement in our yellow lab, Harley, after he had spent a month training with Kat. Harley started at about 4 months of age and was a very excitable pup who had a hard time listening. After his training period he was able to sit, stay for long periods of time on command - even when you turned your back and walked away (which we were extremely impressed by!). Sit pretty, walk nicely next to you, fetch, etc. One of our favorite things to do as a family is walk the pier, and we were finally able to enjoy this with Harley without being tripped! Harley is a huge lover and liked to jump up on us and our guests when we returned home, he is now much better at sitting to be pet and will even go sit and stay in his "naughty corner" if the pup in him gets the best of him. Kat also dropped off/picked up Harley from our vet after he was neutered + microchipped. Overall, we were so happy with the environment, love and discipline Kat provided for our guy!

Can I use you as a reference or contact for other interested parties that want to have their dog trained or boarded. (Please check box if Yes)
