Describe below any comments you would like to make on the dog training, boarding or experience with my business. Please be honest. Please return to me in enclosed envelope. All suggestions help to maintain a good relationship to my clients and animals and make the business the best it can be.

We had a fabulous experience with Kat. We were referred to her from a friend and I can't thank her enough. Our dog Lucy has been so easy to work with from the first day we brought her home. All of the "tricks" she learned from Kat, she remembers and does very well. The best part is when we take her for a walk, we never (really) have to use a leash. If Lucy sees something and starts to run, we just say her name and she comes right back. She will whine and go to the door when she has to go ~~to~~ to the bathroom and we can just open the door and go back to what we were doing and Lucy will come back in when she is ready. We thought about putting up a fence, but she has never left the yard in the 3 months we have owned our house. I did send Kat an email once concerned about something (I don't even remember now, sorry), and Kat replied promptly and whatever she told us to do worked right away. This has been the best experience and could go on and on, but I think you get the point.

Thank you so much,

Ryan & Allie Pitlick
